

Boggavarapu Yasaswini

Badrachalam,Telangana | yasaswiniboggavarapu@gmail.com | 9381010084 |

Objective

"Computer Science student with a strong passion for problem-solving, Machine Learning, and Artificial Intelligence. Skilled in developing efficient algorithms and AI-driven solutions to tackle complex challenges. Seeking an opportunity to apply my analytical and technical expertise in a dynamic environment."

Education

SRM University, Andhra Pradesh. , Bachelor of Sciences in Computer Science	2022–2026
• GPA: 8.14/10	
Sri Chaitanya Junior College, Punadipadu. ,Higher Secondary School	2020–2022
• GPA: 6.57/10	
Dr.KKR Gowtham Concept School, Hyderabad. ,Secondary School	2018–2020
• GPA: 10/10	

Internship/trainings

Finlatics Internship on Machine Learning	June 2024 - September 2024
Frontend Development,Edunet	January 2023 - March 2023
Artificial Intelligence and Machine Learning,Edunet	January 2023 - March 2023

Projects

Online Job Portal System (OOP) - Developed a comprehensive job portal.	January 2024 - June 2024
• Developed an Online Job Portal System using OOP principles, enabling efficient job postings and applications.	
• Implemented authentication, job search, and application tracking features, enhancing the recruitment process for employers and job seekers.	
Closest Pair of Aircrafts - Implemented an algorithm to find the closest pair of aircraft based on their coordinates.	July 2024 - November 2024
• Implemented an algorithm to find the closest pair of aircraft based on their coordinates, optimizing spatial computations.	
• Analyzed algorithm efficiency and improved performance, applying advanced techniques in computational geometry.	
Basic Currency Converter Application - Developed a basic currency converter mobile application using Java.	September 2024 - January 2025
• Developed a basic currency converter mobile application using Java, enabling real-time currency conversion.	
• Designed a user-friendly interface with support for multiple currencies, ensuring ease of use and accuracy.	
Brain Tumor Detection and Classification - Developed a machine learning model for brain tumor detection.	November 2023 - March 2024
• Developed a machine learning model for brain tumor detection and classification using MRI images.	
• Implemented feature extraction and supervised learning algorithms to enhance classification accuracy.	

Publications

- **LAN Network Stability Prediction using Hybrid ARIMA-LSTM Framework** — Accepted at *The 16th International IEEE Conference on Computing, Communication and Networking Technologies (ICCCNT)*, 2025 at IIT - Indore, Madhya Pradesh, India.

Technical Skills

C Programming , C++ ,Data Structures and Algorithms,MS OFFICE,SQL,Frontend

Strengths

Leadership Skills,Project Management,Decision Making,Critical Thinking,Team Work,Good Communication

Languages

English,Telugu,Hindi
